Business Recommendations:

1. Increase staffing during peak morning hours.
2. Promote lower-performing products through combo offers.
3. Encourage digital ordering through mobile app loyalty rewards.
4. Introduce payment-based cashback offers to increase digital transactions.

Key Insights:

1. Sales Performance

- Total Revenue generated was **₹78.4K**.
- A total of **9,936 orders** were processed.
- Average Order Value stood at **₹7.89**.

2. Customer Insights

- Revenue contribution from **Mobile App and Walk-in customers was nearly equal**, indicating balanced customer acquisition across channels.

3. Payment Insights

- **Card payments generated the highest revenue contribution**, making it the preferred payment method among customers.

4. Product Insights

- Chocolate Old-Fashioned Doughnut and Ginger Molasses Cookie consistently ranked among the top-selling products across multiple months.

5. Time-Based Insights

- The highest sales activity occurred during **morning hours**, indicating strong breakfast and early coffee demand.
- Sales volume declined during late evening hours.
